

HOW DO I GET MY PATIENTS TO...

- Learn more about their diabetes?
- Follow medical advice and take their medications?
- Track their blood sugar levels and other important changes?
- Focus on diabetes related problems and concerns and actively discuss solutions?

ARE YOUR PATIENTS MANAGING THEIR TYPE 2 DIABETES?

HOW DO I REFER MY PATIENTS?

Complete a referral form and fax it to:

Referring your patients to diabetes self-management classes can:

Help you meet pay-for-performance and quality improvement goals

Help your patients lower their A1c and blood pressure and improve lipid levels

Assist you with patient training, counseling and help you meet follow-up care guidelines

Help your patients reduce diabetes-related complications and minimize healthcare costs
